

STANDERS OF ASSOCIATION OF POWDER PROCESS INDUSTRY AND ENGINEERING, APPIE

(Apr, 2022)

No.	Reference	Document title	Publish	Revision	Note
1	MAP 01-83	Guidance for use of bag filter	1983		
2	MAP 02-84	Guidance for safety design concerning dust explosion of bag filter	1984		
3	SAP 01-79	Determination of bulk density of granules	1979		G 004
4	SAP 05-98	Guide-line for description of the specification format concerning powder materials	1998	2013	
5	SAP 06-98	Guideline for the description of the specification format concerning powder processing materials and equipments	1998		
6	SAP 08-99	Test sieves - Test sieves of bolting cloth	1999		
7	SAP 11-05	Reference powder for specific surface area	2006		
8	SAP 13-11	Test particles for research and particle size distribution measurement apparatus for submicron size range	2011		
9	SAP 14-12	SAP test powder 3	2012		
10	SAP 16-13	Evaluation method for mixing characteristics of powder mixer by brightness measurement	2013		

The following standard was withdrawn in 2021
SAP 02-82 Determination of apparent density of granules
